### Time Travel

March 2011, Michael Dever was driving from Los Angeles to San Diego. He was excited to see his girlfriend, Rebecca, who he hadn't seen for a few weeks.

It was in the middle of the night and the sea fog was blowing from the Pacific Ocean over Interstate 5. It was making driving conditions a bit tough as the fog kept getting thicker and thicker. (Heckle Fish)

Finally the fog was so thick, Michael had to pull over. He decided to turn on his radio to pass the time while he waited for safer driving conditions. Unfortunately he couldn't get a radio station's signal. (Heckle Fish)

As he waited, he thought it was weird that he wasn't seeing any other cars driving by. After all, he had pulled off a major interstate where passing cars were a plenty.

He gets out of his car. (Heckle Fish)

Just then the fog begins to lift and Michael is shocked at what he sees. He was no longer on the side of the road. He had found himself in the middle of no where... (Heckle Fish)

...and back in a time he's not sure of. When? Let's find out.
